**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague. In line 6, the recitation of "the clean" lacks antecedent support and is not clear as to what "the clean" is referring to.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by May et al.

May et al (WO 88/08534) discloses a chromatographic test strip for performing immunoassays. As shown in Figure 9, the test strip includes a porous member (506) that is located on the exterior surface of housing (500) for receiving a sample fluid and transports the sample fluid to porous carrier material (510) (see page 23).

With respect to the last 4 lines of claim 1, those limitations are considered an intended use of the claimed assay device (i.e. chemically reacting) and thus are not accorded any patentable weight.
